A brief summary

I am a passionate and results-driven Web Developer specialised in Front-end development. I have worked on projects for dozens of companies such as Uber, Walmart, Renault, FedEx and more.

I pride myself on keeping up to date with the latest web-technologies and programming paradigms. I have over six years experience with web development and knowledge of multiple frameworks and languages.

Work experience

NewsNow
2022 - Present   Vue - Node - MySQL - Perl

Remote Web Developer
- ❏ Rewrote network requests to modern standards.
- ❏ Personally wrote code which powers major parts of the website including frontpage, header, lazy loading, favouriting, and much more.
- ❏ Diagnosed/fixed multiple SSR issues. This reduced the initial page render size by over 50%.
- ❏ Worked extensively with backend systems, a large codebase and legacy code.
- ❏ Daily standups with extensive collaboration between team members.

LRN
2019 - 2022   JavaScript - CSS - In-house framework

Programmer
- ❏ Projects being used by hundreds of thousands of users.
- ❏ Working as part of a large team to hit strict deadlines.
- ❏ Helping develop a proprietary framework.
- ❏ Developed scripts to automate tasks that consumed dozens of man hours weekly.
- ❏ Spearheaded innovative use of Git to reduce data sizes to a fraction of previous amounts.
